

Environmental Policy

Concept Balustrades Ltd

Concept Balustrades Limited has been trading since 1992 and is based at its 12,000 sq. ft. factory in Cardiff. We specialise in the fabrication and installation of balustrades. We are also specialists in feature stairs, balconies and canopies. The management and manufacturing workforce have many years experience in project design, fabrication, health and safety and site installation. We are able to produce CAD drawings for client approval by our experienced draughtsmen. Our fabricating team are time served craftsmen, having many years experience in the industry. Our team have the ability to work in not only mild steel, but stainless, aluminium and brass. We also undertake polishing of the finished fabrication at our factory and can carry out site polishing if required. We have a directly employed site installation team, who ensure all our contracts are completed on time to a high standard to the clients' satisfaction.

We are committed to operating in a way which produces as minimal impact on the environment as possible and have put in place an environmental management system (EMS) which helps us to focus on this company objective. We shall ensure that our work does not pollute the environment and seek continual environmental improvement where practicable. It is a given that we are committed to legal compliance at all times and to other requirements to which we may subscribe. We will outsource expertise where necessary to help us keep up-to-date with changing legislation.

We are aware that our biggest environmental impacts relate to material usage in our products, energy use and transport. We have in place appropriate controls to ensure that we operate our business in a manner which controls these and other environmental impacts to ensure we minimise environmental impact at all times and seek environmental best practice.

We are committed to working closely with our customers from start to finish making Concept Balustrades Limited a regular preferred supplier with contractors such as Willmott Dixon, Carillion, Interserve Project Services and Bouygues (formerly Leadbitter) to name but a few. We provide training for our employees to ensure we adhere to any practices and policies in relation to environmental management and encourage all to share ideas for continual improvement. We have our EMS inspected annually against the BS 8555 Seren Scheme by the third party, full independent Inspection Body Tarian Inspection Services. This gives our customers greater assurance we are upholding the commitments made herein.

Grant Smith
Managing Director
